

**MINUTES OF WINTRINGHAM PARISH COUNCIL MEETING HELD ON
MONDAY 14th AUGUST 2023 AT WINTRINGHAM COMMUNITY HALL 7.30pm**

Present: **Mr P Witty (Chair)**
 Mrs Jennifer Leefe
 Mr N Waddington
 Mr M Grayston
 Ms T Ireland
 Ms Anne Ali
 Mr P Clark (Clerk)

Apologies: **Mr Ken Harvey**

1. This was a special meeting to discuss the retrospective planning application ZE23/01344/FUL from Mr. Mason at Linton Mill.

The application is to change the use of a building on the Linton Mill site from agricultural to general industrial.

As Mr. Harvey could not be present at the meeting the clerk asked the councilors if they were familiar with his e mail giving his views, they were.

There was a general discussion about issues relating to Linton Mill and the councilors present were unanimous in their opposition to the smell and smoke arising from the site.

Mr. Witty said that he had spoken to Mr. Mason who assured him that the retrospective application ZE23/01344/FUL was only for the building occupied by Teasdale Engineering (who manufacture machinery) and nothing to do with the wood burning / electrical energy generating activities.

This was backed up by Mr. Witty who had also spoken to Eleanor Hardie at the planning office.

The NYC planning department is still considering the applications for the wood burning and generation side of the business.

In the light of this information none of the councilors were opposed to the SPECIFIC application being considered although objections remain for smoke, smells and noise related to wood burning operations.

The meeting closed at 7.50pm
